

Contrastive VAE screenline match at MDOT stations

Stations inherit the annual-average error from their mapped tract-boundary screenline; repeated station mappings use observed-count-weighted averages.

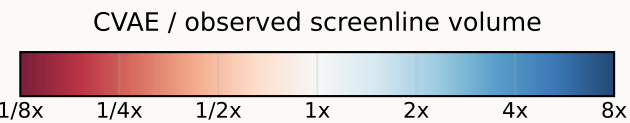

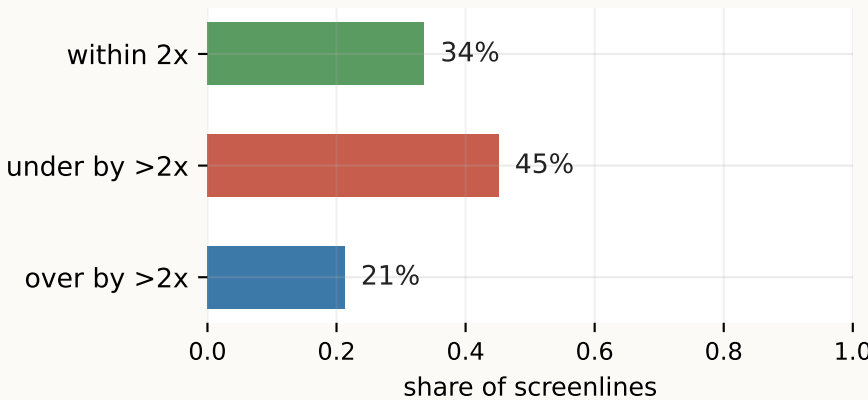

Annual AAWDT tier

3,107 screenlines compared

4,401 mapped station points

Median CVAE/observed ratio: 0.61x

Faint lines show validation screenlines with mapped stations.

Point size: station AAWDT
